The incremental learning derives its name from the incremental nature of the learning process. In incremental learning, all facets of knowledge receive a regular treatment, and there is a regular inflow of new knowledge that builds upon the past knowledge.

2.3. Analytical and finite element modeling. Most of the modeling efforts provided in the literature for predicting the deformation response of nonlinear soft devices tend to apply linearized approaches, which are applicable only in restrictive conditions, such as small displacements []. Thus, linear models are inaccurate

when the deflection amplitudes are higher than the thicknesses of the ...
