To protect sensitive data stored on Dell EMC storage devices from leaks and comply with industry and government regulations, organizations must audit files and folders on these storage devices. Netwrix Auditor for EMC simplifies Dell EMC VNX and VNXe, Celerra, and Isilon auditing and reporting to help organizations keep their sensitive data safe from unauthorized access or changes.

ViPR Controller is a software-defined storage offering from EMC Corporation announced on May 6, 2013, at EMC World. ViPR abstracts storage from disparate arrays into a single pool of storage capacity that "makes it easier to manage and automate its own data-storage devices and those made by competitors."

Fancy running a virtualized EMC VNX or Celerra instance in your own lab? Well, good news this is totally possible and for free (\*small print: Doesn't include lab hardware and batteries not included). I've run a couple of webinar sessions over the past 18 months on setting up and running the EMC VNX and Celerra virtual storage appliance (VSA), and still regularly have people ask how they get ...
