Why would an organization pursue membership in an organizational category, yet forego opportunities to subsequently promote that membership? Drawing on prior research, we develop a theoretical model that distinguishes between basic and subordinate categories and highlights how organizations may differ in their promotion of the same subordinate category.

One of Elsevier's journals was caught in the sting set-up by John Bohannon, published in Science, called Who's Afraid of Peer Review? The journal Drug Invention Today accepted an obviously bogus paper made up by Bohannon that should have been rejected by any good peer review system. Instead, Drug Invention Today was among many open access journals that accepted the fake paper for publication.
