Throughout Wikipedia, the pronunciation of words is indicated by means of the International Phonetic Alphabet (IPA). The following tables list the IPA symbols used for English words and pronunciations.

### **Help:IPA/English - Wikipedia**

Pronunciation in Wikipedia should be transcribed using the International Phonetic Alphabet (IPA), except in the particular cases noted below.. For English pronunciations, broad transcriptions should be used; these are intended to provide a correct interpretation regardless of the reader's accent. The system for doing this is outlined at Help:IPA/English, and the first instance should include a ...
