The new economy is not about technology, it is about a change in the basic assumptions about the nature of work. Contributing to this are several demographic factors.

Unleashing the Power of Self-Directed Learning - Emotional

Autodidacticism (also autodidactism) or self-education (also self-learning and self-teaching) is education without the guidance of masters (such as teachers and professors) or institutions (such as schools).

Generally, an autodidact is an individual who chooses the subject they will study, their studying material, and the studying rhythm and time.

Autodidacticism - Wikipedia

A self-replicating machine is a type of autonomous robot that is capable of reproducing itself autonomously using raw materials found in the environment, thus exhibiting self-replication in a way analogous to that found in nature. The concept of self-replicating machines has been advanced and examined by Homer Jacobsen, Edward F. Moore, Freeman Dyson, John von Neumann and in more recent times ...
