## **the creation of inequality pdf**

Economic inequality is the difference found in various measures of economic well-being among individuals in a group, among groups in a population, or among countries. Economic inequality sometimes refers to income inequality, wealth inequality, or the wealth gap. Economists generally focus on economic disparity in three metrics: wealth, income, and consumption.

Structural inequality has been identified as the bias that is built into the structure of organizations, institutions, governments, or social networks. [unreliable source?] Structural inequality occurs when the fabric of organizations, institutions, governments or social networks contains an embedded bias which provides advantages for some members and marginalizes or produces disadvantages for ...

What this report finds: Income inequality has risen in every state since the 1970s and in many states is up in the post-“Great Recession era. In 24 states, the top 1 percent captured at least half of all income growth between 2009 and 2013, and in 15 of those states, the top 1 percent captured all income growth.
