Sales process engineering is the engineering of better sales processes. It is intended to design better ways of selling, making salespeople's efforts more productive. It has been described as "the systematic application of scientific and mathematical principles to achieve the practical goals of a particular sales process". Selden pointed out that in this context, sales referred to the output of ...

AIDA is an acronym that stands for Attention, Interest, Desire and Action. The AIDA model is widely used in marketing and advertising to describe the steps or stages that occur from the time when a consumer first becomes aware of a product or brand through to when the consumer trials a product or makes a purchase decision. Given that many consumers become aware of brands via advertising or ...
